

1
Place the **base** onto a hard work surface with the **rib side up**.

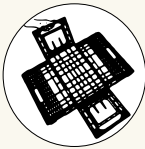

2
Fit a **long wall** into the hinge openings of the base with the **smooth side facing outwards**.
Push slightly downwards and to the right until the wall **audibly locks** into place.

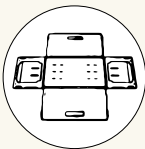

3
Repeat Step 2 with the **second long wall**.

4
Fit a **short wall** into the hinge openings of the base with the **smooth side facing outwards**.
Push slightly downwards and to the right until the wall **audibly clicks** into place.

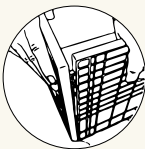

5
Repeat Step 4 with the **second short wall**.

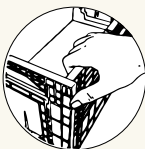

6 IMPORTANT
Flip the four connected pieces over. The **smooth sides should now be up** with all connected ribbed sides down. The **interior walls** of your Weinbox will be **smooth**.

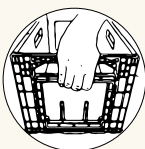

7
Lift a long and a short side upwards to form a right angle (90°).

8
Place **both flaps of the long side** into the openings of the **short side**.

9
Press the long side outwards. It will **audibly click** into place.

10
Repeat this procedure with all other sides of the box.

Access Doors

Lift the opening flap with label holder up out of the locking. Pull the opening flap outwards.

Loading Wine

Alternate the bottle direction when loading. Nest bottles in layers of four as illustrated below.

Assembly Video

Check out our step-by-step assembly video for a closer look at Weinbox.
